Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003: Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The art of record does not teach or suggest a memory controller which performs periodic calibration cycles and that further alters the frequency of said calibration cycles based on parameters or operating conditions that may affect the operation of the system memory (e.g., claims 1 and 24) such as an environmental parameter (e.g., claims 2, 17 and 28), temperature (e.g., claims 5, 16, 18, 29, 32 and 34), expected remaining life (e.g., claims 10, 35 and 38), error profile (e.g., claim 13, 36 and 37), humidity (e.g., claims 19 and 22) or a combination of parameters (e.g., claims 7, 12, 20, 21 and 30) further including a light parameter (e.g., claim 23).

Applicants are informed of the following changes which have been made by informal examiner's amendment in consultation with Michael Heim: Page 12, line 18, —200— was inserted after "Rambus memory bus"; claim 9, line 2, "1" was changed to —5—; and claim 10, line 1, "9" was changed to —1—. Additionally, on page 4, line 6, "5" was changed to —7— and "(C5..C0)" was changed to —(C6..C0)— (see reference AC, page 6, from which figure was taken, referring to "a seven bit column address" for a COLC packet as "C6..C0"); page 20, line 19, "or" was changed to —are— and claim 37, line 7, "device" was changed to —devices—.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Thanos *et al.* reference teaches a disk drive that monitors a change in temperature to determine when the positioning system is to be recalibrated. The Woo *et al.*

Art Unit: 2187

reference teaches a memory system with a temperature sensor that implements various regulation schemes based upon the detected temperature; calibration is not suggested.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
